## Section 1 – Purpose and basis of the insurance leaflet

### 1 – Purpose of the insurance leaflet

The policy corresponding to this Insurance leaflet is an optional-membership group insurance policy taken out by the Policyholder association « Association Coopération, Mobilité et Expatriation (ACME) » or his representative, on behalf of its members, with the Insurer. The policy is subscribed by the Policyholder association with MFPREVOYANCE, the “Insurer”, in the context of an underwriting delegation given to VYV International Benefits.

It is covered by branch 2 - Sickness defined in article R.321-1 the French Insurance Code and is governed by both its stipulations and the provisions of the French Insurance code and applicable French legislation.

Its purpose of the policy is to provide optional cover for individuals on international mobility, aged under 30, citizens or non-citizens of the European Union, residents in a Member State of the European Union and members of the Policyholder Association, for reimbursement of medical expenses recognised by the French social security Sickness Insurance, and this from the first euro, in accordance with this Insurance leaflet.

The Policyholder Association has mandated “Assurances et Conseils Moncey” to design and distribute the contract, which is the subject of this Insurance leaflet.

### 2 – Effective date, duration and renewal of the membership certificate

#### 2.1 Affiliation

The application to take out the policy is made via a standard membership form approved by the Insurer, including a medical questionnaire. This document must be completed, dated and signed by the insurance applicant, and a medical examination, and an health form.

The membership form states Member's identity, elements required to determine coverage and calculate premium. The insurance applicant acknowledges that he/she is familiar with the Insurance information leaflet.

The cover must be the same for the Insured Member and his/her Spouse (Beneficiary), if any, covered by this policy, if applicable.

Nevertheless, in light of the documents and information received, the Insurer, via ExpaTPA, may:

- stipulate a revised price on a membership certificate compared with that initially stated on a membership form, or a specific exclusion. The insurance applicant may reject these new conditions by informing the Insurer in writing within thirty (30) days from the date of receipt of the proposal or accept them by completing and signing an acceptance form.
- to refuse an insurance applicant. In this case, the refusal is notified by email with acknowledgment of receipt, within one month of receipt of the membership file.

- the Membership start date,
- the Member's full name,
- the full names of any Spouse (Beneficiary),
- the category of beneficiaries defined,
- the coverage area,

**Membership may also end under one of the following conditions:**

- **in the event of non-payment of premiums by the Member,**
- **on the date on which the Insured Party ceases to be a Member of the Policyholder,**

The Insurers concerned ensure that there is no interruption in the coverage of beneficiaries during the procedure.

It is also covered if the patient's condition requires his/her subsequent transfer from the first establishment to another closer establishment.

For any hospitalisation, the prior approval of the Insurer is required, except in case of emergency as defined in Section 6 of this information leaflet.

**In other cases, cover is detailed in the table of benefits set out in annex of this summary of benefits.**

#### 18.2 Table of benefits

The Insured are guaranteed to be covered for all the corresponding benefits mentioned in the table of benefits. They will not be covered for benefits that are not mentioned in the table.

The benefits and benefits ceiling mentioned in the table of benefits are expressed in actual costs, by Insured and by calendar year. Refunds for medical expenses are made in the currency chosen by the Insured up to the maximum indicated in the attached Table of Benefits.

Actual costs: the reasonable and usual cost is assessed according to the rates currently charged by institutions

and practitioners, medical practice prevailing in the country where medical care is provided (type of treatment, quality of care and equipment, geographical area and countries). It is subject to coding and pricing standards for referenced acts and treatments in each country.

**The unreasonable and unusual nature of the costs incurred may result to a refusal to pay medical expenses or a limitation of the reimbursement (deduct the amount paid in proportion to the rates usually and reasonably charged).**

#### Maximum amounts:

Two maximum annual amounts are indicated in the attached table of benefits:

- the maximum annual reimbursement of the Plan is the maximum amount paid for all benefits, per Insured, per calendar year, and under this insurance plan and under each available option.
- Some benefits also have their own maximum annual reimbursement, which can be applied either "per calendar year", "for the duration of coverage of the Insured" or "per event" (travel, per session or pregnancy).

The Insurer, through the TPA, may pay a percentage of the costs for some benefits, for example "65% of actual costs, up to € 5,000". Where the maximum limit applies or where the term "100% of actual costs" is indicated for some benefits, the refund will be subject to the overall limit of the formula, if the latter has one.

#### 18.4 Declaration of medical costs

The declaration form is sent to ExpaTPA accompanied by the supporting documents requested.

The declaration form is accompanied by the supporting documents requested by the Insurer.

No copies, photocopies or duplicates of invoices will be accepted. By way of exception, scanned copies sent by email are permitted for any invoice for an amount **less than €1,000 per invoice**, provided that the Insured retains the originals.

In this case, the Insured must retain the originals for 24 months from the date of treatment. During this period, the Insurer may ask to receive the originals, failing which the reimbursement paid may be challenged.

To be reimbursed, the Insured person commits to send:

- In case of hospitalization: relevant receipt of the hospitalization (invoices paid, fee notes, hospitalization slip) indicating the name of the establishment and the patient, the date of care and the cost of care,
